Earnings growth reflects strong operational performance

Group continuing operations – normalised earnings*
R million

* Excludes contributions from Momentum, OUTsurance and Discovery.

Operating environment remained challenging

- GDP growth moderated around 3%
- Inflation continued rising, breaching 6% on a year-on-year basis in December
- Employment growth was subdued
- Rand strength reversed and currency volatility increased
- Corporates cash flush (low corporate activity)
- ± Interest rates were maintained at historic lows
- + Real household income growth peaked but remained above GDP growth
- + House price growth picked up to mid-single digits
- + Consumer spending (especially on durables)

Statutory view

11/12

Potential levers to mitigate decline in franchise ROEs

- Capital optimisation
- Increasing scale and growth can enable franchises to improve performance
- Business model and pricing options
- Cost management

ROE in target range and business/capital actions could further improve returns

* ROE from Jun '10 onwards is on a continuing basis for FirstRand Ltd

strategy & prospects

Sizwe Nxasana

FirstRand's strategy

- Objectives
 - To be the African financial services group of choice
 - By creating long-term franchise value
 - Through delivering superior and sustainable returns
 - Within acceptable levels of earnings volatility
 - Underpinned by alignment of shareholder value creation and management remuneration

- ... driven by two growth strategies
 - In South Africa, focus on existing markets and areas currently under-represented
 - Further grow African franchises in key markets and mine the Africa/Asia corridors

Strategy executed through operating franchises and appropriate platforms

Prospects

- Economic conditions to remain subdued for the second half

- This will continue to place pressure on topline and balance sheet growth

- We continue to manage the business and adjust strategies accordingly
 - Looking at growth markets
 - Innovation becomes even more important
 - Adjust origination strategies to take advantage of changing market dynamics
 - Risk-adjusted returns remain the focus
 - Cost continues to be a priority

Franchises aim to outperform
