INTRODUCTION

Group continues to deliver growth and returns above hurdle rates

Normalised earnings (R million)

Economic profit reflects superior shareholder value creation

* Net income after capital charge.

Slowing topline already impacting ROA whilst credit remains benign

The graph shows each item before taxation and non-controlling interests as a percentage of average assets. ROA reflects normalised earnings after tax and non-controlling interests as a percentage of average assets.

Six months ago the group indicated that its domestic franchise faced some challenges...

WHAT WE SAID	WHAT PLAYED OUT
Even tougher macros	Moved to the bottom end of expected growth forecast
Increased cost of funding and liquidity	Actual increase in funding and liquidity costs even higher than expected
Current and proposed regulatory changes likely to place pressure on growth	Interchange and impending NCA rate caps, and increased cost of liquidity and capital
Lower demand from corporate SA	Domestic demand in line with expectations
Consumer to remain under pressure	Disposable income came under increased pressure
Downside risk due to negative commodity cycle (especially mining and metals, and oil and gas)	Worse than expected deterioration in commodity cycle

Insurance includes embedded credit protection.

Transactional franchises resilient despite headwinds

Transactional* PBT (R million)

Retail and commercial

- Ongoing gains in new customers
- Growing deposit base resulted in positive endowment impact
- Success of e-migration
- Good traction in cross-sell and up-sell driving lending and deposit growth

Retail only

- Interchange impact significant, but marginally lower than expected due to:
 - Active mitigation strategies including migration, e.g. cash to digital, debit to credit card
 - Rewards driving transactional volumes and facilitating migration strategy

* Transactional includes credit card, overdrafts and transactional deposit products and deposit endowment.

Origination linked to transactional strategy

- Strong growth in retail credit results from continued focus on existing client base
 - 98% of new overdraft/revolving facility limits and 80% of new card limits to main transactional-banked FNB customers
 - Focused on middle-upper income segments
- Pre-scoring of clients ensures targeted product growth
- Client migration and up-sell also driving growth
- Impairment charges normalising towards through-the-cycle levels
- Acquisition strain expected as book matures

STRATEGIC UPDATE

FIRSTRAND

Current strategic framework

- In South Africa
 - Protect and grow **lending and transactional franchises** through **disruption and differentiation**
 - Capture a larger share of profits from the broader financial services markets
- Establish meaningful in-country franchises in chosen markets in the rest of Africa

This was reviewed given significant structural and cyclical shifts in the operating environment

South Africa	Rest of Africa
<ul style="list-style-type: none">• Low GDP growth• High inflation• Higher interest rates• Higher cost of funding• Increased unemployment• Risk of sovereign rating downgrade	<ul style="list-style-type: none">• Negative commodity cycle• Undiversified markets susceptible to macro shocks often exacerbated by policy mistakes• Higher correlation between markets

Adjusted strategic framework looks to find protection and growth

- Greater balance in activities – broaden financial services offering
- Franchise- and platform-neutral business model
- Still aim to be dominant regional player
- Further geographic diversification

Ultimately create more balanced revenue mix

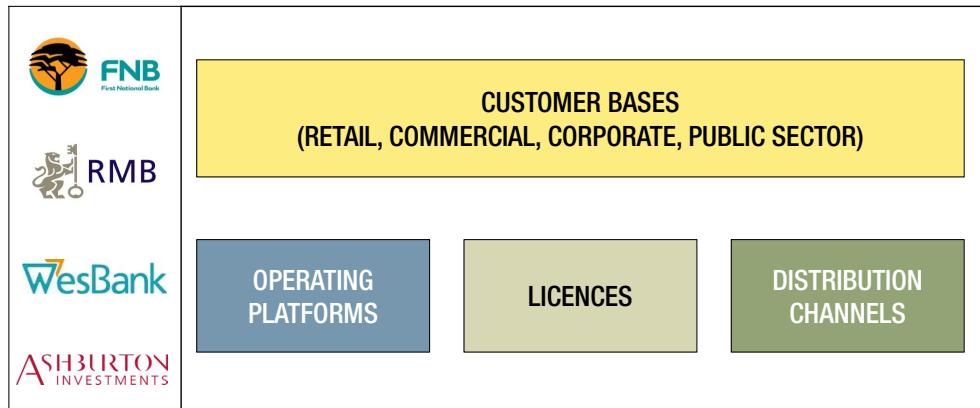

Large opportunity given our market share

* Current revenue mix is based on gross revenue excluding consolidation adjustments.
 ** Includes private equity, deposit taking, and investment management.

Adjusted strategic framework looks to find protection and growth

- Greater balance in activities – broaden financial services offering
- Franchise- and platform-neutral business model
- Still aim to be dominant regional player
- Further geographic diversification

Objective remains to be a dominant regional player

Rest of Africa

- Chosen markets remain attractive
- Elevated risk means execution time frames extended
- Portfolio view will inform approach
- Not necessarily universal banking
- Discipline in capital allocation

Adjusted strategic framework looks to find protection and growth

- Greater balance in activities – broaden financial services offering
- Franchise- and platform-neutral business model
- Still aim to be dominant regional player
- Further geographic diversification

Look for protection, growth and diversification in other markets

Other markets

Protection

- Access to hard currency will enable rest of Africa strategy
- Protect counterparty status in order to access financial markets

Growth and diversification

- i.e. UK and Channel Islands
- Initial focus
 - Expand MotoNovo product set
 - Build a deposit franchise

The updated strategic framework provides broader opportunities for growth

Resulting in a revised statement of intent...

- FirstRand's portfolio of leading financial services franchises:
 - provides a universal set of transactional, lending, investment and insurance products and services
 - seeks to operate in markets and segments where franchises can deliver competitive and differentiated client-centric value propositions...
 - ...by leveraging the relevant distribution channels, product skills, licences and operating platforms of the wider group
- Strategy is executed on the back of disruptive and innovative thinking underpinned by:
 - owner-manager culture
 - disciplined allocation of financial resources

...which will underpin delivery of...

**...superior and sustainable
economic returns to shareholders
within acceptable levels of volatility
and maintain balance sheet strength**
