

Life Healthcare

Making life better

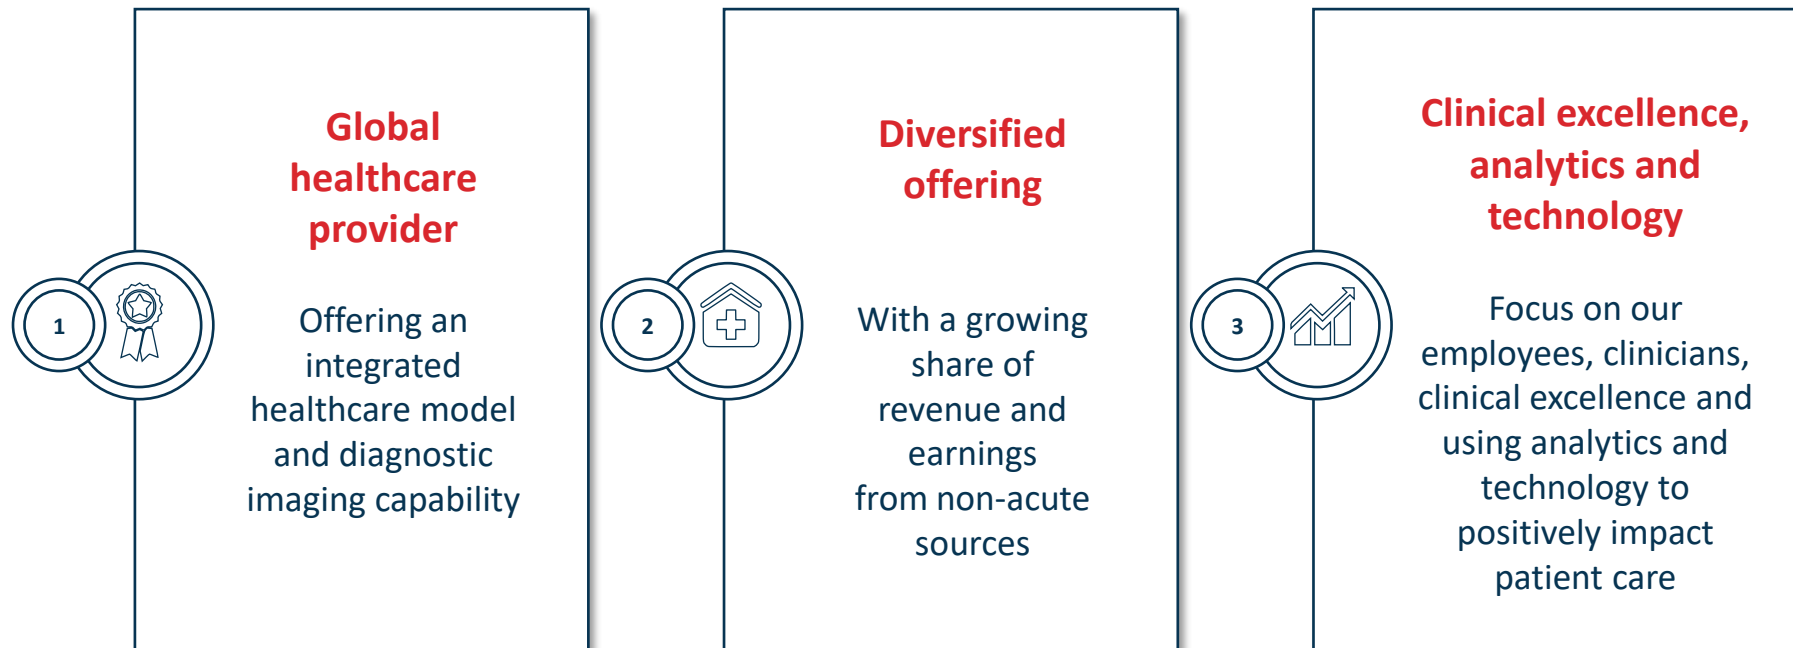

Overview

Peter Wharton-Hood Group Chief Executive

Life Healthcare

Making life better

*Our vision is to be a global, **people-centred**, diversified healthcare organisation*

STRATEGIC PILLARS

QUALITY

Deliver market-leading **quality** care and **patient experience**

EFFICIENCY

Deliver cost-effective care through **our employees, clinicians, efficient processes,** and the use of **technology,** research and innovation

SUSTAINABILITY

Effectively engage with our **stakeholders** to ensure our long-term **sustainability**

GROWTH

Continue to **grow** our businesses, while **diversifying** our sources of revenue

IMPROVED OPERATING PERFORMANCE DESPITE ONGOING COVID-19 PANDEMIC

¹ Scanmed S.A. (Scanmed) was disposed of during the period and has been classified as a discontinued operation

² Based on management accounts: Constant EUR/GBP currency of 1.2 and excludes impact of long-term incentives

³ Life Healthcare defines normalised EBITDA as operating profit before depreciation on property, plant and equipment, amortisation of intangible assets and non-trading-related costs and income

⁴ Calculated in terms of lender agreements

Life Healthcare

Making life better

ALLIANCE MEDICAL GROUP

Europe's leading
independent provider of
imaging services

RESILIENT OPERATIONAL PERFORMANCE

- AMG continues to see an improvement in demand for its services across almost all territories despite the ongoing pandemic and lockdowns in many regions
- AMG continues to provide COVID-19-related scanning solutions for the NHS England (NHSE) and other governments across Europe as it strives to be the key radiology partner of choice
- UK PET-CT volumes remain higher than the prior year, pre COVID-19, while diagnostic imaging services (CT and MRI) have recently moved back in line with pre-COVID-19 levels
- Ireland has seen a strong performance aided by winning public sector contracts
- Italy impacted by strict lockdowns following 2nd COVID-19 wave, but has since rebounded to pre-COVID-19 levels
- c.72% of AMG staff have received their first COVID-19 vaccine

STRONG OVERALL PERFORMANCE

	H1-2021	H1-2020	% change
Revenue (£'m)	177.5	151.5	17.2
Business as usual (£'m)	162.2	158.4	2.4
Estimated COVID-19 impact (£'m)	15.3	(6.9)	
Normalised EBITDA* (£'m)	45.1	32.7	37.6
Business as usual (£'m)	38.3	37.3	2.6
Estimated COVID-19 impact (£'m)	6.8	(4.6)	
Normalised EBITDA* margin	25.4%	21.6%	
Normalised EBITDA* margin (excl COVID-19)	23.6%	23.5%	

* Based on management accounts: Constant EUR/GBP currency of 1.2 and excludes impact of long-term incentives

- Underlying revenue and normalised EBITDA growth from:
 - Resilience and growth in PET-CT scan volumes in the UK
 - Strong growth across Ireland
 - Increasing demand for CT imaging
- UK mobile market buoyant with strong demand outside of NHSE CT contract
- Radiopharmacy supply stabilised as a result of Dinnington opening
- Normalised EBITDA margin increased to 25.4% from 21.6% driven by:
 - Impact of additional revenue from providing support to national healthcare providers
 - Radiopharmacy supply challenges resolved in H2-2020
 - Partly offset by Dinnington costs which dilute margin by c.1%

ESTIMATED COVID-19 IMPACT

- Diagnostic imaging saw a reduction in volumes throughout H1-2021 in UK and Italy, with volumes around 90% of pre COVID-19, but increasing towards the end of H1-2021
- Volumes in some regions, most notably within mobile services in the UK and Ireland, are above those expected as pent up demand is met
- National healthcare support relates to additional services performed to support public healthcare providers with COVID-19 response, including provision of mobile CTs in UK as well as COVID-19 blood testing in Italy
- Other relates to additional costs being incurred, such as PPE as well as the additional time required to clean facilities between patients

SUPPORTING PUBLIC HEALTHCARE PROVIDERS

- During initial phases of the COVID-19 pandemic we supported national healthcare providers by offering additional COVID-19 support measures:
 - AMG (UK) provided NHSE with a 24/7 mobile CT service spanning England, incl. Nightingale hospitals
 - AMG (Italy) introduced COVID-19 blood testing at a number of centres
 - AMG (Ireland) provided staff to HSE to support government hospitals
- This early support cemented our relationships with the national healthcare providers and has led to further opportunities, including:
 - Providing significant additional CT capacity in the UK both through mobile units as well as in PET-CT centres to assist with meeting pent up demand
 - Being awarded a contract to provide significant additional capacity to reduce waiting lists in Ireland
- Waiting lists are at all time highs in many countries and are continuing to grow
 - May lead to further opportunities for AMG to provide additional capacity through mobiles in the short term, while also offering longer-term solutions to help reduce waiting lists
 - It is expected that the COVID-19 support measures will be normalised during FY2022. However, offering support measures to deliver immediate pent-up demand may become business as usual

AMG: UK MOLECULAR IMAGING (MI)

- PET-CT wave 1
 - MI growth underpinned by 10-year PET-CT wave 1 contract
 - Pricing certainty until December 2025
- PET-CT wave 2
 - Four separate contracts began in 2019 and 2020
 - Fixed price contracts with a seven-year term with a three-year renewal option
- Now contracted to provide c.70% of NHSE PET-CT services
- PET-CT volumes continued to recover throughout H1-2021, being 6.1% above prior year and volumes in March 2021 were 19% above FY2020 monthly average pre-COVID-19

AMG: UK DIAGNOSTIC IMAGING (DI)

- Strategic focus continues to be on long-term partnership solutions with hospital trusts
- Over the last 12 months we have been reactive to shorter-term opportunities to meet pent up demand
- UK DI volumes down 3.5% as lockdowns impacted volumes, particularly in central London
- NHSE looking to create Community Diagnostic Hubs across England, with private-public-partnerships encouraged

Growth in longer-term contracts

NHSE Referral to Treatment waiting times (England)

Source: www.england.nhs.uk/statistics

AMG: ITALY, IRELAND AND OTHER REGIONS

Italy

- Revenue up 13.7% as a result of recovery in volumes supplemented by COVID-19 blood testing activity
- 8.0% growth in H1-2021 from diagnostic scanning volume vs H1-2020 (20.2% including lab activity)
- Focus on continuing scanning volume recovery, driving public volumes and supporting with supplementary activity (laboratories)
- Clinic acquisitions during recent years performing well
- Continuing consolidation of activities within regions to reduce cost base

Ireland

- Record volumes seen through H1-2021, up 22.6% vs the prior year across diagnostic imaging
- Strong demand in private self-pay marketplace during H1-2021 as patients look to bypass waiting lists
- New contracts awarded by HSE to reduce waiting lists

Other Regions

- Robust radiopharmacy sales throughout period, with little impact from COVID-19 experienced
- Strong demand for interim mobile solutions
- Acquisition of additional cyclotron business in Germany completed in January 2021

CONTINUED FOCUS ON QUALITY OUTCOMES AND PATIENT EXPERIENCE

Clinical quality indicator	H1-2021	H1-2020	H1-2019	Year-on-year trend	Target

Adam Pyle CEO southern Africa

Life Healthcare

Making life better

COVID-19 PPDs in Life Healthcare facilities

- 1st COVID-19 wave peak July 2020: 1 658 patients admitted
- 2nd COVID-19 wave peak January 2021: 2 074 patients admitted
- >28 000 COVID-19 admissions

Life Healthcare COVID-19 admissions in April and May 2021

- H1-2021 PPDS show a recovery out of 1st COVID-19 wave in October and November
- Similar PPDS at peak of 1st and 2nd COVID-19 waves
- Sharp fall in COVID-19 PPDS in February 2021
- Good recovery in non-COVID-19 PPDS in March 2021 after the 2nd COVID-19 wave peak in January 2021

BUSINESS OVERVIEW: SEQUENTIAL IMPROVEMENT IN NUMBERS

Overview

- Acute hospital business has shown a solid recovery despite the severe 2nd COVID-19 wave impact. Learnings from the 1st COVID-19 wave and a rebound in elective surgical cases between waves have benefitted the acute hospital business
- Consistent stronger growth in complementary and healthcare services driven by additional service offerings and some capacity growth

Occupancies

Revenue mix (R million)

ACUTE HOSPITALS AND COMPLEMENTARY SERVICES

	2021	2020	% change
PPD growth	(14.9%)	0.2%	
Revenue (R'm)	9 087	9 402	(3.4)
Business as usual (R'm)	9 759	9 514	2.6
Estimated COVID-19 impact (R'm)	(672)	(112)	n/a
Normalised EBITDA (R'm)	1 510	2 236	(32.5)
Operations EBITDA (R'm)	2 019	2 704	(25.3)
Business as usual (R'm)	2 862	2 771	3.3
Estimated COVID-19 impact (R'm)	(843)	(67)	n/a
Corporate costs (R'm)	(509)	(468)	8.8
Normalised EBITDA margin	16.6%	23.8%	
Normalised EBITDA margin (excl COVID-19)	24.1%	24.2%	

- Revenue and normalised EBITDA trend improving from April 2020 onwards despite 2nd COVID-19 wave
- Growth in revenue per PPD driven by change in case mix towards higher acuity cases:
 - 4.1% tariff increase
 - 8.0% positive case mix shift
- COVID-19 effects now in the base for full 12 months
- Corporate consists of head office costs, central support services and investment in new projects and initiatives

ACUTE HOSPITALS: OVERVIEW

Daily occupancies

Acute PPDs

Theatre minutes

Cathlab cases

- General improvement from H1-2020 to H1-2021 after weaker H2-2020
- March 2021 results are a good indicator of business learnings and the business adapting following the onset of COVID-19 in March 2020

March 2021 vs March 2020	
Revenue	+ 0.6%
SA Operational EBITDA %	22%
PPDs	-11%
Theatre minutes	-2.2%
Cathlab cases	+ 1.7%
Length of stay	3.82 (H1 21: 4.32)

COMPLEMENTARY SERVICES: OVERVIEW

HEALTHCARE SERVICES: OVERVIEW

Life Esidimeni

- Stable performance in terms of activities, revenue and margins despite the 2nd COVID-19 wave
- 516 000 PPDs during the current period
- 10 facilities with 3 163 beds (+28 in this period)

Life Employee Health Solutions (Life EHS)

- Revenue growth due to increased services and benefits offered including COVID-19 screening apps, contact tracing and virtual consultations
- 540 000 lives covered across occupational health and wellness offerings

CONTINUED FOCUS ON QUALITY OUTCOMES AND PATIENT EXPERIENCE

Patient Adverse Event Rate

Employee Safety Measures

- Good overall quality performance in COVID-19 context
- General trend shows improvement on prior years
- Patient experience on par with prior years
- Employee safety measures exclude the impact of COVID-19. Including COVID-19 the score is 11.6 showing the burden placed on healthcare workers by COVID-19
- VAP, CLABSI and CAUTI measures also impacted by COVID-19

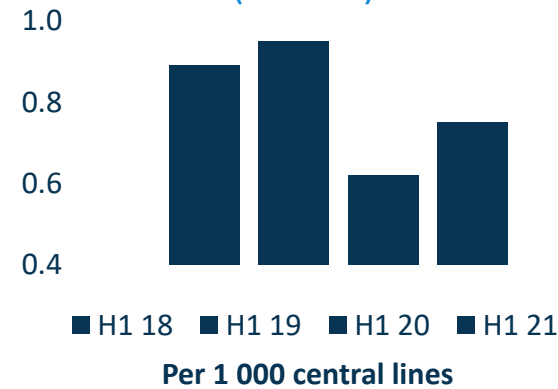

Ventilator-associated pneumonia (VAP)

Surgical site infections (SSI)

Central line-associated bloodstream infections (CLABSI)

Catheter-associated urinary tract infections (CAUTI)

Net finance costs	(296)	(437)	(32.3)
Associates and joint ventures	17	10	
Profit before tax	1 056	1 447	(27.0)
Tax	(297)	(490)	(39.4)
Profit/ (loss) from discontinued operation	87	(21)	>100
Non-controlling interest	(34)	(155)	(78.1)
Attributable profit	812	781	4.0

- H1-2021 significantly impacted by second COVID-19 wave, whereas the effect of the first wave was only felt for a brief period in H1-2020
- Strong revenue growth due to higher acuity of patients in SA resulting in higher revenue per PPD, while AMG showed a good recovery in scan volumes as well as revenue from COVID-19 support provided to national healthcare providers
- The decrease in normalised EBITDA largely driven by lower activity levels in SA and higher COVID-19-related operating costs
- Disposal of Scanmed concluded on 26 March and presented as a discontinued operation and the net impact for the period was a profit of R87 million

Southern Africa

- Good growth opportunities within the existing market
- Focus on execution
- Invest in IT infrastructure to enable digital innovation

SA imaging

- Continued progress made
- Operations expected to commence during FY2021

Other growth projects

- Acute hospitals
 - Re-initiating select hospital growth projects
- Complementary services
 - Growth opportunities within mental health, acute rehabilitation, renal dialysis and oncology
- Healthcare services
 - Life Esidimeni – potential growth opportunities being investigated
 - Life Employee Health Solutions – COVID-19 growth opportunities

Comparison of scans done by AMG vs SA private sector

Outlook

Peter Wharton-Hood Group Chief Executive

Life Healthcare

Making life better

International

- UK and Europe making good progress with vaccinating the bulk of their populations
