\*\* For the year under review “Profit on sale and dilution of equity accounted investments” primarily consists of a profit of R2 262 million realised on the dilution of Remgro’s interest in Mediclinic as part of the Al Noor transaction, while the comparative year included a profit of R958 million realised on the dilution of Remgro’s interest in Mediclinic due to a bookbuild exercise.

#### Fair value remeasurements

The following methods and assumptions are used to determine the fair value of each class of financial instruments:

- Financial instruments available-for-sale and investment in money market funds: Fair value is based on quoted market prices or, in the case of unlisted instruments, appropriate valuation methodologies, being discounted cash flow, liquidation valuation or actual net asset value of the investment.
- Derivative instruments: The fair value of derivative instruments is determined by using appropriate valuation methodologies and mark-to-market valuations.

Financial instruments measured at fair value, are disclosed by level of the following fair value hierarchy:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – Inputs (other than quoted prices included within level 1) that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following tables illustrate the fair values of financial assets and liabilities that are measured at fair value, by hierarchy level:

Level 3 financial assets consist mainly of investments in the Milestone China entities (Milestone), the Kagiso Infrastructure Empowerment Fund (KIEF) and the Pembani Remgro Infrastructure Fund (PRIF) amounting to R1 534 million, R306 million and R228 million respectively. These investments are all valued based on the fair value of each investment's underlying assets, which are valued using a variety of valuation methodologies. Listed entities are valued at the last quoted share price on the reporting date, whereas unlisted entities' methods include discounted cash flow valuations and appropriate earnings and revenue multiples.

Milestone's fair value consists of listed investments (32%), cash and cash equivalents (7%) and unlisted investments (61%). 86% of the unlisted investments were valued at cost as Milestone's management considers the transaction price to be the fair value of the investments, while the remaining 14% was valued at approximately R121 million. KIEF's investments were valued using the discounted cash flow method. PRIF's main asset is the investment in ETG Group and it was valued using appropriate revenue and earnings multiples based on peer group companies to determine a price-to-book valuation.

Changes in the valuation assumptions of the above unlisted investments will not have a significant impact on Remgro's financial statements.

#### **Related party transactions**

During the year under review the most material related party transactions are Remgro's facilitation of Mediclinic's acquisition of Spire, as well as Remgro's participation in the combination of Mediclinic and Al Noor. Remgro obtained bridge financing from Rand Merchant Bank (RMB) to partly fund these transactions. The bridge financing was partly replaced by long-term debt of which fixed rate cumulative redeemable preference shares amounting to R3 500 million were issued to RMB. Refer to the section dealing with "Investment activities" for more detail on these transactions.

## COMMENTS (unaudited)

### 1. ACCOUNTING POLICIES

The summary consolidated financial statements are prepared in accordance with the requirements of the JSE Limited (JSE) for summary financial statements, and the requirements of the Companies Act applicable to summary financial statements. The JSE requires summary financial statements to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS) and the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by *IAS 34: Interim Financial Reporting*.

The accounting policies applied in the preparation of the consolidated financial statements from which the summary consolidated financial statements were derived are in terms of IFRS and are consistent with those accounting policies applied in the preparation of the previous consolidated annual financial statements. The financial statements have been prepared under the supervision of the Chief Financial Officer, Neville Williams CA(SA).

### 2. RESULTS

#### **Headline earnings**

For the year to 30 June 2016, headline earnings and headline earnings per share decreased by 26.4% from R7 996 million to R5 887 million and from 1 555.0 cents to 1 143.9 cents respectively.

Included in headline earnings for the year under review are once-off transaction costs incurred with the Mediclinic rights issue and Al Noor Hospitals Group plc (Al Noor) transaction amounting to R788 million, of which R402 million is Remgro's own costs and R386 million is Remgro's share of Mediclinic's transaction costs ("once-off costs"), as well as a fair value adjustment of R730 million, relating to the increase in value of the bondholders' exchange option (accounted for as a derivative liability) of the bonds ("option remeasurement") that were issued during March 2016 to partially refinance the foreign bridge funding that was raised for the Al Noor transaction. The bonds are exchangeable into Mediclinic plc shares and/or cash and fair value adjustments on the option (reflecting *inter alia* the movement in the underlying Mediclinic plc share price) are expected to cause volatility in headline earnings during its five-year term. Excluding these items, headline earnings decreased by 7.4% from R7 996 million to R7 405 million, whereas headline earnings per share decreased by 7.5% from 1 555.0 cents to 1 438.9 cents.

It should furthermore be noted that headline earnings includes other once-off items, which cause comparability of the results to be challenging. These are:

- Additional finance cost incurred with the Mediclinic rights issue and Al Noor transaction that were accounted for the three months to 30 June 2016 amounting to R245 million, whilst the equity accounted earnings for Mediclinic was recognised only for the period until 31 March 2016, since the Group lags Mediclinic's reporting period by three months;
- Facilitation and underwriting fees of R99 million received from Mediclinic in the 2015 financial year;
- Transaction and funding costs relating to the Spire Healthcare Group plc (Spire) transaction amounting to R115 million (2015: R38 million), whereas the recoupment of R153 million is included in profit on the sale of Spire to Mediclinic, outside headline earnings;
- Positive impact on RCL Foods' results with the release of a R163 million provision raised for uncertain tax disputes, as well as a R119 million gain on the exercise of the Zam Chick and Zamhatch put options (Remgro's portion being R218 million);
- Positive impact on Mediclinic's profit in the comparative year due to Swiss prior year tax adjustments of R712 million (Remgro's portion being R300 million);
- Positive impact on RMI's profit in the comparative year with the release of a put option liability at Discovery of R415 million (Remgro's portion being R126 million) and
- PRIF distributions of R170 million in the comparative year due to first close versus R18 million in the year under review resulting from the second and third closes.

## REMGRO LIMITED

Excluding all the aforementioned items, Remgro's comparable headline earnings increased by 2.6% from R7 339 million to R7 529 million mainly due to better operating performances by its banking, insurance, healthcare and industrial platforms, offset by lower earnings from RCL Foods, as well as Grindrod.

### Commentary on reporting platforms' performance

#### *Food, liquor and home care*

The contribution from food, liquor and home care to Remgro's headline earnings amounted to R1 618 million (2015: R1 531 million), representing an increase of 5.7%. RCL Foods' contribution to Remgro's headline earnings decreased by 12.8% to R658 million (2015: R755 million). During the year under review RCL Foods' results were positively impacted by the release of a R163 million provision raised for uncertain tax disputes as part of the Foodcorp acquisition, as well as a R119 million gain on the exercise of the Zam Chick and Zamhatch put options. Excluding these remeasurements, RCL Foods' contribution to Remgro's headline earnings would have decreased by 41.7% to R440 million. This decrease is mainly due to lower contributions from the Sugar and Chicken businesses. The Chicken business was impacted by a massive oversupply in the local market caused by local production and dumping, while the Sugar business remained under pressure due to the severe drought conditions. Unilever's contribution to Remgro's headline earnings increased by 39.3% to R461 million (2015: R331 million). This increase is mainly the result of revenue growth and margin improvement. Distell's contribution to headline earnings, which includes the investment in Capevin Holdings, amounted to R499 million (2015: R445 million). This increase is mainly the result of revenue growth and efficiency improvements across the business. Distell experienced strong performances from all product categories and also benefited from a weaker rand against the major currencies in which it trades.

#### *Banking*

The headline earnings contribution from the banking division amounted to R2 989 million (2015: R2 845 million), representing an increase of 5.1%. FirstRand and RMBH reported headline earnings growth of 5.9% and 4.5% respectively. On a normalised basis, FirstRand and RMBH reported earnings growth of 7.4% and 7.0% respectively, mainly due to growth in both interest income and non-interest income from FNB, RMB and WesBank, partly offset by an increase in credit impairment charges, which reflect the deteriorating macro-economic environment.

## REMGRO LIMITED

### *Healthcare*

Mediclinic's contribution to Remgro's headline earnings amounted to R1 566 million (2015: R1 734 million). It should be noted that Mediclinic's results for the year under review include once-off transaction costs incurred with the Al Noor transaction of R891 million, while the comparative period included positive Swiss prior year tax adjustments of R712 million. Excluding these once-off items Mediclinic's contribution to Remgro's headline earnings would have increased by 36.1% from R1 434 million to R1 952 million. This increase is mainly due to solid performances by all three operating platforms, as well as the positive effect of the weaker rand.

### *Insurance*

RMI Holdings' contribution to headline earnings decreased by 9.9% to R888 million (2015: R986 million). This decrease is mainly the result of a once-off profit in the comparative period, with the release of a put option liability at Discovery, which is excluded from RMI Holdings' normalised earnings. On a normalised basis, RMI Holdings reported an increase of 5.9% in earnings, with Discovery and OUTsurance achieving good earnings growth of 6.6% and 42.7% respectively, offset by lower earnings from MMI Holdings (lower by 15.8%). OUTsurance's growth can be attributed to the significant improvement in the contribution from the Youi group. The comparative year's results were negatively impacted by numerous weather-related catastrophes in Australia. MMI Holdings' decrease is mainly due to lower underwriting profits, as well as lower asset-based fees.

### *Industrial*

Total's contribution to Remgro's headline earnings amounted to R291 million (2015: R133 million). Included in the contribution to headline earnings is unfavourable stock revaluations amounting to R88 million (2015: R286 million). These revaluations are the result of the volatility in the Brent Crude price and the rand exchange rate. Excluding these revaluations, the contribution decreased by 9.5% from R419 million to R379 million mainly due to an excellent operational performance by NATREF in the comparative period, which the refinery was unable to repeat during the current reporting period. Remgro's share of the results of KTH amounted to a loss of R229 million (2015: loss of R108 million). KTH's results were negatively impacted by unfavourable fair value adjustments relating to its investments in Exxaro Resources Limited and MMI Holdings Limited preference shares. Air Products' and Wispeco's contribution to headline earnings amounted to R275 million and R144 million respectively (2015: R222 million and R104 million), while PGSI contributed R36 million to Remgro's headline earnings (2015: R30 million).

### *Infrastructure*

Grindrod's contribution to Remgro's headline earnings amounted to a loss of R45 million (2015: a profit of R135 million). This decrease is mainly the result of weak commodity markets and significantly lower dry-bulk shipping rates. For the year under review the CIV group contributed R64 million to headline earnings (2015: R51 million). SEACOM reported a headline loss of R113 million for the year under review (2015: headline earnings of R96 million), with Remgro's share of this loss amounting to R33 million (2015: profit of R24 million). This decrease is mainly due to a higher depreciation charge on certain cable assets resulting from a change in the estimated useful life of these assets. During the year under review the Pembani Remgro Infrastructure Fund (PRIF) had its second and third closes, which resulted in Remgro receiving an income distribution of R18 million (2015: R170 million in respect of the first close), mainly due to foreign exchange gains realised in the PRIF structure.

### *Media and sport*

Media and sport consist of the interests in eMedia and various sport interests, including interests in rugby franchises, as well as the Stellenbosch Academy of Sport. eMedia's contribution to Remgro's headline earnings decreased by 59.4% to R28 million (2015: R69 million), mainly due to continued pressure on advertising revenue as a result of a sharp drop in market share during the previous financial year, leading to a considerable investment in local programming to recover market share, as well as continued investment into the multi-channel business. The sport interests' contribution to headline earnings amounted to a loss of R64 million (2015: loss of R85 million).

### *Other investments*

The contribution from other investments to headline earnings amounted to R67 million (2015: R84 million), of which Business Partners' contribution was R48 million (2015: R47 million).

## REMGRO LIMITED

### *Central treasury and other net corporate costs*

Finance income amounted to R125 million (2015: R111 million). This increase is mainly the result of higher average cash balances, as well as higher interest rates than in the comparative period. Finance costs mainly consist of funding costs amounting to R466 million and once-off transaction costs amounting to R402 million, which relate to the Mediclinic rights issue and Al Noor transaction, as well as a fair value adjustment of R730 million, relating to the increase in the value of the exchange option of the exchangeable bonds. Other net corporate costs amounted to R251 million (2015: R52 million). The year under review includes transaction and funding costs amounting to R115 million (2015: R38 million) relating to Remgro's acquisition of Spire Healthcare Group plc (Spire). Remgro recouped this amount from Mediclinic as part of the Spire disposal consideration, which resulted in a profit on disposal of investment of R153 million, excluded from headline earnings. The comparative period also includes a net after-tax facilitation and underwriting fee of R99 million received from Mediclinic on the Spire transaction and resultant rights issue.

### **Earnings**

Earnings decreased by 38.2% to R5 386 million (2015: R8 715 million). The decrease is mainly the result of the once-off transaction costs incurred with the Mediclinic rights issue and Al Noor transaction (R788 million), the fair value adjustment relating to the increase in value of the exchange option of the exchangeable bonds (R730 million), the impairment of the investment in Grindrod (R1 861 million) and Remgro's portion of the impairments in Grindrod's Rail and Shipping divisions (R577 million), as well as Remgro's portion of an impairment in RCL Foods' Milling business (R439 million). The decrease is partly offset by a profit of R2 262 million realised on the dilution of Remgro's interest in Mediclinic as part of the Al Noor transaction (2015: profit of R958 million due to a bookbuild exercise).

### **3. INTRINSIC NET ASSET VALUE**

Remgro's intrinsic net asset value per share increased by 6.1% from R288.89 at 30 June 2015 to R306.44 at 30 June 2016. The closing share price at 30 June 2016 was R254.66 (2015: R255.94) representing a discount of 16.9% (2015: 11.4%) to the intrinsic net asset value. Refer to Annexure B for full details.

### **4. INVESTMENT ACTIVITIES**

*The most important investment activities during the year under review were as follows:*

#### **Mediclinic International Limited (Mediclinic)**

##### Facilitation of Mediclinic's acquisition of Spire

During June 2015 Remgro entered into an agreement with funds managed by Cinven to acquire 119 923 335 Spire Healthcare Group plc (Spire) shares (equivalent to a 29.9% shareholding in Spire) at a price of £3.60 per share for a total purchase consideration of £431.7 million (excluding transaction costs). The transaction was concluded early in July 2015 and Remgro financed the transaction through a combination of its own cash and external funding.

In conjunction with the above transaction, Remgro and Mediclinic concluded an agreement whereby Mediclinic would acquire Remgro's interest in Spire, subject to Mediclinic raising the appropriate funds in order to conclude such a transaction. During August 2015 Mediclinic raised R10.0 billion through a rights issue in terms of which 111 111 111 new Mediclinic shares were issued at a price of R90.00 per share. Remgro, by following its rights and by underwriting the balance of the rights issue, subscribed for an additional 51 342 886 Mediclinic shares totalling R4.6 billion. Following the successful conclusion of the rights issue, Mediclinic acquired Remgro's shareholding in Spire during August 2015 for an amount of R8.6 billion, equal to the purchase price, transaction and funding costs. Remgro thus effectively only facilitated the acquisition of Spire by Mediclinic.

In order to participate in the above-mentioned rights issue Remgro obtained bridge financing amounting to R3.5 billion. On 13 January 2016 Remgro (through its wholly owned subsidiary, Remgro Healthcare Holdings Proprietary Limited (Remgro Healthcare)) refinanced the bridge financing by issuing fixed rate cumulative redeemable preference shares. These preference shares have a tenure of four years and the dividend rate is fixed at 7.7%, payable semi-annually.

After the above transactions, Remgro's effective interest in Mediclinic was 42.5% (30 June 2015: 42.0%).

## REMGRO LIMITED

### Combination of Mediclinic and Al Noor Hospitals Group plc (Al Noor)

On 14 October 2015 Mediclinic and Al Noor agreed on the terms for the combination of their respective businesses (the "Combination") pursuant to which Al Noor offered to acquire 100% of the issued share capital of Mediclinic. The transaction was concluded on 15 February 2016 and given the relative size of Mediclinic and Al Noor, the Combination was classified as a reverse takeover of Al Noor. The combined group was renamed Mediclinic International plc (Mediclinic plc) and it retained its premium listing on the Main Market of the London Stock Exchange (LSE). Mediclinic plc also obtained an inward secondary listing on the main board of the Johannesburg Stock Exchange (JSE) and it was admitted to the FTSE 100 index of the LSE. Mediclinic shareholders received 0.625 Al Noor shares for every Mediclinic share held by them, based on the five-day volume weighted average price up to and including 1 October 2015 of the Mediclinic shares on the JSE and of the Al Noor shares on the LSE (which was £5.20 and £8.32, respectively). As a result of the reverse take-over, Remgro realised a profit on the dilution of the interest in Mediclinic amounting to R2 262 million.

In addition to the Al Noor shares received by Remgro and as an indivisible component of the Combination, Remgro also subscribed for an additional 72 115 384 shares in Al Noor at a subscription price of £8.32 per share for an aggregate amount of £600.0 million during February 2016 (the "Remgro Subscription"). In order to fund the Remgro Subscription, Remgro obtained bridge financing of which £400.0 million was borrowed offshore, while £200.0 million (or R4.3 billion) was borrowed in South Africa.

On 16 March 2016 Remgro (through its wholly owned subsidiary, Remgro Healthcare) refinanced the local bridge financing with newly issued fixed rate cumulative redeemable preference shares amounting to R4.4 billion. The preference shares have a tenure of five years and a fixed dividend rate of 8.3%, payable semi-annually.

On 22 March 2016 Remgro (through its wholly owned subsidiary, Remgro Jersey GBP Limited) refinanced £350.0 million of the foreign bridge financing by issuing exchangeable bonds with a tenure of five years and a fixed rate of 2.625%, payable semi-annually. The exchangeable bonds are exchangeable into approximately 30.9 million Mediclinic plc ordinary shares, and the exchange price for the bonds is £11.3086 per Mediclinic plc share, representing a 30% premium above the weighted average price on the LSE between launch and pricing of the bond offering. Upon exchange or redemption of the bonds, Remgro will have the discretionary right to deliver an amount in cash or shares or a combination of cash and shares. The bonds were included for trading on the open market (Freiverkehr) segment of the Frankfurt Stock Exchange on 23 March 2016.

On 30 June 2016 Remgro's effective interest in Mediclinic was 44.6%.

### **Britehouse Holdings Proprietary Limited (Britehouse)**

During September 2015 Remgro disposed of its investment in Britehouse for a total consideration of R159.6 million. A profit of R93.7 million was realised on this transaction, which is excluded from headline earnings.

### **Milestone China Funds**

During the year under review Remgro advanced the remaining committed loan amount of \$6.9 million to Milestone Capital Strategic Holdings. Remgro also invested a further \$6.7 million in Milestone China Opportunities Fund III (Milestone III), thereby increasing its cumulative investment in Milestone III to \$93.2 million. As at 30 June 2016 the remaining commitment to Milestone III amounted to \$6.8 million.

### **Pembani Remgro Infrastructure Fund (PRIF)**

During the year under review Remgro committed a further R150.0 million to PRIF, bringing the total committed funds to R650.0 million. As a result of the additional commitment and PRIF's successful second and third closes, Remgro invested a further net amount of R28.6 million in PRIF, thereby increasing its cumulative investment in PRIF to R211.9 million. As at 30 June 2016 the remaining commitment to PRIF amounted to R438.1 million.

### **Other**

Other smaller investments amounted to R152 million.

## REMGRO LIMITED

### Events after year-end

#### **Invenfin Proprietary Limited (Invenfin)**

On 27 July 2016 Remgro (through its wholly owned subsidiary, Invenfin) acquired a 30% stake in Dynamic Commodities Proprietary Limited (Dynamic Commodities) for R80.0 million. Dynamic Commodities is an export-focused company that produces high quality frozen desserts, snacks and value-added “fresh frozen” fruit. During August 2016, Invenfin also acquired a 30% stake in Joya Brands Proprietary Limited, a sweets manufacturer, for R50.2 million.

Other than the above-mentioned transactions, there were no other significant transactions subsequent to 30 June 2016.

### 5. TREASURY SHARES

At 30 June 2015, 2 169 558 Remgro ordinary shares (0.5%) were held as treasury shares by a wholly owned subsidiary company of Remgro. As previously reported, these shares were acquired for the purpose of hedging Remgro’s share incentive scheme.

During the year under review no Remgro ordinary shares were repurchased, while 444 165 Remgro ordinary shares were utilised to settle Remgro’s obligation towards scheme participants who exercised the rights granted to them.

At 30 June 2016, 1 725 393 Remgro ordinary shares (0.4%) were held as treasury shares.
